Get inspired with VOGUE LIGHTING and SAFARI PAINTERS

Lois and Sue showed us round the latest Vogue Lighting/Safari Painters collaboration, a beautiful tall house in the Mount with magnificent sea views across the South Pacific Ocean.

THESE TWO TAURANGA FAMILY BUSINESSES, headed by the matriarchs, have been working together on projects together for over twenty years, styling interiors as only they know how to, using colour and light. This house just makes us sigh...

LIGHT CHANGES THE WAY WE SEE COLOURS and with so much natural light pouring in everywhere during the day and the glow of different light sources at night, you need an expert to make sure the walls around you look gorgeous from dawn to twilight. **U**
