QUALITY CRAFTSMANSHIP
THE NEXA SOFA WITH CAST IRON LEGS, AND SUSTAINABLY SOURCED, EBONISED OAK FRAMES WILL STAND THE TEST OF TIME

MIX+MATCH CUSHIONS AND TROWS FOR A FRESH FEEL

KATH SAYS: Hunter Furniture has a vast range of dining and living room furniture in store. And the zesty, yellow-green tones that are big news this spring were everywhere among their accessories. I love their Mulberi range of cushions, throws and rugs. I wanted to pack the rugs in my bag! And the wool blend Valetta rugs in bark and pumice were beautiful. Layered, they offset the rich furniture colour, and add interest, texture and amazing comfort.

WALL ART: White-framed prints, like *Into The Easterly* by Rob Dickinson, are easy to rotate around your home, and give energy and warmth to a space.

BUILT TO LAST: With ebonised oak and sculptural cast iron legs, the NEXA range works well as a collection, or add an individual piece for a more sculptural style. **U**
