

THE EXPERT

**Kathrine McDonald**

Summer is nearly here and it's time to think about entertaining, and that might mean updating your outdoor living area. Outdoor furniture doesn't have to be boring. I love blending creativity and practicality and always aim to achieve an overwhelmingly modern and minimalist result with any space. Easy additions to an outdoor setting, but which also immediately add a luxe feel, are floor coverings and lighting. An outdoor rug gives you flexibility with seating options, and the latest rechargeable or USB portable outdoor lighting can be picked up and taken with you wherever you go.

*Kathrine McDonald Design is an interior business based in Mount Maunganui.*
